Cost certainty and quality legal advice.

Protect your IP assets

We can offer you fixed price IP audits to root out the value of your intellectual property, and present solutions to protect it and maximise its value. Our trade mark service also provides a fixed price registration service for UK and EU markets to protect your marks in the most appropriate jurisdictions.

Fund raising

Raising finance is fundamental to the success of a growing business. We offer fixed fee or contingency fee arrangements for all sorts of transactions, whether that is taking venture capital or private equity investment, taking your company public, or refinancing with your banks. We also offer advice on innovative funding arrangements, such as crowd funding and trade finance.

Defend your business

We offer innovative funding mechanisms including insurance and contingent fees which help you manage the cost of litigation and enable you to take on litigation which is otherwise too expensive.

Managing your employees

We provide total peace of mind - for a fixed monthly fee, we will provide unlimited access to our team of employment solicitors and HR professionals to guide you through all of your day-to-day employment law related issues.

Company administration

We offer a host of fixed priced standard services for businesses, including company formation, company secretarial and registered office services.

Ensuring value and certainty

First we listen to your needs, then quote for an appropriate, tailored solution, then deliver it, sticking firmly to our quote. If your needs are simple and straightforward, then the quote will reflect that. If not, you will be aware of that from the outset – no nasty surprises. So you can be 100% confident from beginning to end of what you can expect, and what this will cost, delivering best value which is in all our interests. Throughout you can be assured of a highly cost-effective and competitive service.
